

Online Advertising is an easy and inexpensive way to increase Your Company's profile or Business visibility!

Exposure in a local or international arena... And that's exactly what KANTABiZ is all about. ADVERTISING!!

KANTABiZ.com is currently looking for advertisers and sponsors. We intend to deliver your ADVERT to all users browsing through the KANTABiZ site.

Content: The website is dedicated to Business and Products Video Search:

We are a new company offering competitive prices for all advertising on our site. Our visitors and registered users use the KANTABiZ.com Video search directory engine to seek, purchase, evaluate, or just simply browse to gain specific Business or Product information regarding Businesses, Products, and even People services like freelancers....

Our aim is to enable our users to do this quickly without a fuss and all in Video.... By running a marque -graphic display- advertising campaign on our site, such as banners/ images, you will benefit from being exposed to hundreds of thousands of key users, from around the world, already engaged in a search of sorts at KANTABiZ.com

At the moment, we can offer a very simple uncomplicated and straight forward placement of graphical ads in two formats on various pages of our video directory search engine. As we are a brand new Search directory, we offer a simple random advertisement rotation module.

The KANTABiZ paid Advertisement and banner sponsorship module:

At present, we offer a simple PHP based advertisement rotation module, which picks one advert at a time, completely randomly, and on a totally random time control, with no manual intervention at all.

The functionality of our module is rotating adverts, or graphics gif's/jpeg's, to a webpage. Each time a new page is viewed, or the current page refreshed, the advert is changed as per a random time control. It offers each Advert a certain amount of viewing time, before being revolved for another advert. Instead of just showing static adverts we use the random adverts functionality to cycle through a group of adverts or images.

As an example, we ourselves use this functionality on our website to cycle through a selection of in-house KANTABiZ adverts and message blocks to our users, increasing the information we are able to deliver to visitors and registered users of the site ourselves.

We can also administer multiple adverts on our pages! All of which will be randomly displayed. KANTABiZ™ offers advertisers the opportunity to deliver messages to consumers at a time when consumers are searching and seeking and online, as never before.

General Info:

- File size limit: not subject to negotiation.
- Animated GIF's to become static after 20 seconds. max
- Banners and ads to be provided as finished artwork.
